CAD for VEX Robotics (updated 3/7/19)

First off, the nature of VEX in general, is a highly versatile prototyping system, and this leads to “tinkerbots” (for good or bad, how many robots are truly planned out down to the specific parts prior to building?) The team that actually used CAD for design (that is, CAD is done before building), will usually

CAD for VEX Robotics (updated 7/18/19 ... - VEX Forum

CAD design than in the past One thing that has helped is that computers don't need to be so powerful and expensive to run some of the newer CAD software...especially OnShape Here's some reality: most VEX people look at CAD to document their design and create neat looking renderings of their robots

Participant Release Form Process

entities (including third-parties not affiliated with VEX) managing, contracting, sponsoring, hosting, conducting, evaluating or publicizing (including individuals and third-party entities working with VEX in print, publication, television, broadcast or video media) the VEX Robotics Competition As
